

## Pewter Metallic Leather Flats - Must-Have Stylish Office Fashion For Fall

Pluggz

Believe me when I tell you that you NEED a pair of comfortable and cute flats. Sounds easy -- well they can be tough to find. I love the EOS Ballet Flats from [Pluggz](#) which are made of supple full grain leather with patent toe caps and slip resistant rubber soles with pluggz proprietary grounding technology. Memory foam (like a bed for your feet!) padded arches and heels, moisture wicking anti-microbial lining and a trampoline heel give extra comfort and support. For just \$129, these are the shoes you can wear from day to night and beyond. Words of advice from a former waitress who was always on her feet!
