Pluggz Grounding Shoes Giveaway

MAY 1, 2013

Pluggz sent me some information on their line of shoes and I checked them out. They have really cute, comfortable looking ballet flats and flip flops. When they agreed to sponsor a giveaway, I took a closer look to see what Pluggz is all about I discovered the reason for the name "Pluggz." Each pair of shoes contains black plugs made from a custom formulated carbon and rubber compound that sit under a weight bearing part of our feet ensuring electrical contact between the earth and our bodies. This proprietary plug feature allows people to get grounded when walking on grass, sand, soil — even concrete city sidewalks. The creator of Pluggz created the technology in order to ground "the person wearing the footwear to the earth which creates the powerful benefit of reducing inflammation in the body by restoring electrons to a more balanced state."

About Pluggz "Grounding" Shoes

Pluggz are innovative shoes that combine style and comfort, plus they are great for your body, giving an “earthing” effect. Did you know that the “earthing”/ “grounding” effect is the #3 Spa Trend for 2013? Now you can get it everyday, effortlessly! Pluggz offers a new spring line of [bright colored flats](#) and the original Pluggz ballet flats. Pluggz are high quality shoes made of supple, full grain leather and linen, padded arches and heels with memory foam, moisture wicking, anti-microbial lining and trampoline heels for extra comfort and support.

You can see the whole line of Pluggz including the flip flops at Pluggz.com
