

LightStim

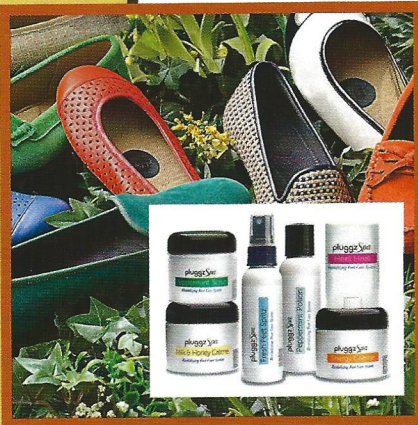

LightStim Home Care Lights

lightstim.com | 1.949.502.4088

WHAT MAKES THIS PRODUCT A BEAUTY-CARE ESSENTIAL?

LightStim LED Light Therapy is revolutionizing the face of beauty. Soothing, painless and good for all skin types, LightStim patented MultiWave™ technology emits multiple wavelengths simultaneously for dramatically greater results, employing the same strength and power as the brand's professional line of LED devices. LightStim for Wrinkles helps to reduce and eliminate fine lines and wrinkles, restore skin's youthful appearance, and stimulate the production of collagen and elastin.

LightStim for Acne heals and calms existing breakouts and destroys acne-causing bacteria to minimize future breakouts. LightStim for Pain temporarily relieves arthritic pain, muscle and joint pain, and reduces inflammation and stiffness.

Pluggz

Pluggz & PluggzSpa

pluggz.com | 1.800.771.8314

WHAT MAKES THIS PRODUCT A BEAUTY-CARE ESSENTIAL?

Just as the sun provides warmth and vitamin D, the Earth gives out a natural energy called electrons. The practice of acquiring electrons is known as "grounding" (also called "earthing"). Pluggz thinks of electrons as "vitamin G." These electrons are scientifically validated to reduce inflammation, improve sleep, help normalize blood pressure and increase blood circulation, which is great for your skin and helps to combat wrinkles, too. All Pluggz shoes have adorable styling, designed with

proprietary grounding technology™ and are bio-mechanically engineered for long wear, comfort and support. PluggzSpa line, created for the brand's signature "grounding pedicure," features revitalizing foot-care products formulated with the highest-quality natural, organic ingredients.
