

Surprising beauty and fashion secrets for red carpet season

Happy feet

Stars wear stratospheric heels for the cameras, but when no one is watching they slip into low profile flats to run around in the dark of the ballrooms. American shoemaker Pluggz is a top pick and newcomer for the high fashion color ranges and the low profile it has, as it delivers an optimal arch and instep structure so feet do not tire. Flat shoes can be as painful as high heels if the shoe has no support.

Pluggz (www.pluggz.com) contains black plugs made from a custom carbon and rubber compound that sit under a weight bearing part of the foot ensuring electrical contact between the earth and the foot. These plugs are designed to conduct a flow of free electrons that energize the foot.

Pluggz not only offer extreme comfort, they also are super stylish and have flats and flip-flops in fun metallic and neutrals ensuring they'll go with every outfit.

Pluggz are made of 100% high quality, comfortable rubber soles. People love the way they feel. And, Hollywood celebrities love them because when you buy a pair of Pluggz, a portion of the proceeds goes towards supporting inspiring organizations dedicated to improved health for people of all ages.
